Dear parents and carers,

As we start Term 2 and reflect on the ‘New Beginnings’ at Holy Trinity for 2011 it seems appropriate to highlight the great things happening in our school.

We started 2011 with significant changes in leadership and school environment. The following lists some of the ‘New Beginnings’ at Holy Trinity for 2011:

- New school leadership team for the school;
- The building projects are finally complete and although there is still some work for the future, the classrooms are 21st C, contemporary and very effective learning spaces;
- We now offer preschool education for four year olds in a Catholic school setting;
- All our technology was upgraded and is fully integrated into all classrooms with interactive whiteboards, laptops and iPads;
- Student leadership has been adapted to make it more inclusive of all Year Six students. Our students leaders are now more involved and have the opportunity to develop their leadership capacity;
- Our rigorous curriculum is dynamic and adapting to reflect the newly developing Australian Curriculum in the subjects of English and Science;
- We have reviewed our excellent NAPLAN results which demonstrate the wonderful teaching at Holy Trinity and have designed our Strategic Plan to further extend our students;
- We have implemented the School Wide Positive Behaviour program. Through this program we affirm the positive behaviour of our students and explicitly teach life skills. We are proactive in nurturing positive relationships in our community and
- We continue to provide many opportunities for the children be involved in extra curricula activities; sport, music, speech & drama classes, choir, community activities, TOM, rostrum and debating.

Underpinning all the above is a very strong, loving and caring parent community who participate in all aspects of the school. Therefore, Holy Trinity continues to lead Catholic education which is the message we wish to promote to the wider community. In this enrolment time we are asking all parents to help us positively promote Holy Trinity Primary School and Early Learning Centre as an education experience of choice for local families. This week postcards will be sent to all families to distribute in the neighbourhood to advertise our Open Day & Evening.

Advertising is paramount to promote our school and so we are asking parents to help us and spread the good word about Holy Trinity and help with our enrolment drive. Steady and consistent enrolments benefit everyone at the school: staffing levels are maintained, resourcing of personnel and extra curricula activities can continue to be implemented.

We have an exciting future ahead at Holy Trinity with dreams yet to be realised. We hope that everyone will continue supporting the ideals of a Catholic co-educational primary experience to lay the foundation for a positive and successful high school experience. Primary schools are the foundation of our future and the supportive environment at Holy Trinity contributes diligently to maintain this focus.

We thank you for your continued support and care.

Kindest regards,
Judy Spence
